

Wed., June 15, Sp. Fork vs. Am. Fork, Don't fail to see this game - City Park, 3 p. m.

American Fork Citizen

VOL. XVIII

AMERICAN FORK, UTAH, SATURDAY, JUNE 11, 1921.

NUMBER 19

IT WAS A WONDERFUL GAME FILLED WITH THRILLS AND EXCITEMENT

It was a wonderful game—the one at Lehi Wednesday—filled with thrills and excitement. Shelley pitched the game for the first 7 innings and did splendid work. During the first 6 innings not a run was made by either side. Our boys played almost errorless throughout the game. In the 7th innings the locals scored 2 runs and in the last half of the same innings

Lehi made 1 run with two on bases when Shelley was replaced by Miller. Miller did exceptionally well and no more scores were made by the Lehi nine.

In the eighth, when American Fork got two on bases, one of them by a close decision of the umpire, the Lehi nine walked off the diamonds, declaring that they would protest the game. After about 15 minutes of deliberations the game was started again and American Fork scored two more runs, which proved to be the final score of 4-1.

Our boys got 10 hits from Jackson while the Lehi club got only 6 from our pitchers.

The other games played the same day resulted as follows:

At Provo—Provo 11, Heber 2.

At Springville—Springville 2, Nephi 1.

At Spanish Fork—Spanish Fork 2, Payson 0.

What is thought will be the best game of the season is being played here Friday as we go to press, when the locals and the Springville nine are battling for first place in the league. So far each team has lost but 1 game out of 8 played, and the game today will break the tie. Springville was beaten by Nephi 3-2 and American Fork was defeated by Provo 9-2.

The game played here next Wednesday will be played with Spanish Fork.

The line-up and summary for Wednesday's game was as follows:

AMERICAN FORK												
	PO	A	E	R	R	H	S	B	SH			
Binch, 3b	1	5	0	3	1	1	1	0	0			
Birk, 1b	12	1	0	4	0	1	0	0	0

Hit by pitcher—Binch.

Balloons for the kiddies, again at 1c. at Grant's.

DELEGATIONS ASK COUNTY TO BUILD GOOD ROADS IN CANYON

Delegations from Lehi, American Fork, Pleasant Grove and Salt Lake met with the County Commissioners last week and asked that a good road be built up to Community Flat at the base of Mt. Timpanogos. The road built last year was too steep and did not prove satisfactory, the heavy rains have washed most of it away this winter, it is declared.

The following men were all present to urge the Commissioners to give assistance: E. A. Torsion of the Salt Lake Commercial and Rotary clubs, Mr. Risher of the State Auto Association, Dr. Watson representing the Lehi Commercial club and City Council, Mr. Gammett of Pleasant Grove Commercial club and City Council, B. S. Kershaw of the American Fork Commercial club, J. E. Chadwick of the American Fork City Council, J. H. Walker representing the schools and M. I. Associations of the Alpine district, Richard Wadley and Will Hayes of Pleasant Grove and Dana Parkinson, state forest supervisor. All these men are energetic boosters for American Fork Canyon and Mt. Timpanogos.

Considerable opposition was met with by the Provo Commercial club but the Commissioners finally decided to give their aid in rebuilding the road and promised to come up and look the situation over in the near future.

The State also may be asked to give some assistance. The government has made a beautiful trail up Mt. Timpanogos and will probably make one up to Hansen's cave, as the owners of the cave have expressed their willingness to give up their claims, if the government wants it.

Many tourists will visit the canyon this summer. The Salt Lake Boy Scouts will come on July 23-25 and 26. The Bingham scouts will also spend a week in American Fork Canyon, besides all the various troops of Bee Hive girls in the state.

Our canyon is one of the most beautiful spots in the west and tourists will be glad to visit it if the trip is made enjoyable by good roads.

WE PRINT BUTTER WRAPPERS.

COMMERCIAL CLUB HOLDS SPECIAL MEETING

A special meeting of the Commercial Club was held in the club rooms Tuesday night with Vice-President Paxman in the chair. There was a good attendance.

A report was given by C. M. Beck and B. S. Kershaw stating that it would cost \$1,000 to electrify Hansen's cave. The club decided that it would not be feasible to spend this amount of money at this time. They decided, however, to offer 30 views of the cave to Eastern magazines for publication if they would be acceptable.

C. M. Beck reported that the Alpine road repairing was completed and that the County Commissioners and the City Council had accepted the work.

Secretary Kershaw reported that a committee had met with the County Commissioners at Provo and asked that the road to Community Flat in American Fork Canyon be put in good condition. He said that considerable discussion was made, but that the Commissioners had finally decided to do all in their power to complete the road. Representatives of the Salt Lake club were also present, he stated. The report of this committee was accepted and the secretary was instructed to write the various clubs who sent representatives and thank them for doing so.

The chairman suggested that all members should pay up their dues in order that the club might function properly.

The advertising committee presented their initial report, stating that suitable signs should be placed about town naming the various points of interest, and routing the tourists to Timpanogos and American Fork canyon. The report also was accepted and the signs were ordered made and placed as designated.

A communication was read from the Ellison White Chautauque people stating that the dates of August 2 to 3 inclusive had been set for American Fork Chautauque.

A communication was read from the Mutual Creamery Company, wherein they stated that machinery would be placed in their new plant here in a few months, and that they expected operations to commence in March 1922. Considerable discussion followed, and the club decided to insist that the Creamery Co. live up to the agreements made when they sold stock here, and commence operations at once.

A letter from the mail clerk at Ogden was read regarding the securing of mail over the Salt Lake Route. It was the opinion of Postmaster Clarke that we would have a better chance of securing it over the Orem Route instead of the Salt Lake Route, and recommended that our efforts be turned in that direction. The same committee was instructed to continue their labors for a better mail service for American Fork.

Pres. Paxman then stated that the purpose of the special meeting was to discuss plans for a Timpanogos rally. He stated that from 200 to 300 members of the Salt Lake Commercial and Rotary Clubs would come to American Fork for the occasion on Tuesday, June 21. It was decided to invite the club members here for that evening. A rally will be staged on Main street to stimulate interest in American Fork Canyon and Mt. Timpanogos, after which the visitors will be banqueted. The banquet will be followed by a dance in the Apollo hall. A detailed program has not been completed. A committee of twelve men was appointed to look after the entertainment of the visitors.

Sunday Night Meetings

The meeting last Sunday night was given by the Mutuals of the four wards. Dr. Jas. M. Grant was the speaker and some good musical numbers were given.

Next Sunday's meeting will be given by the Alpine Stake missionary association. The main feature of the meeting will be the musical numbers given by Prof. Chas. Hopkins and his two sons, ages 9 and 11 years. They will render several violin selections. Together with these musical numbers a good speaker has been secured and a good crowd is expected out.

MIDNIGHT INTRUDER ENTER GIRLS' HOME

The Misses Sadie and Martha Chipman, who live with their aged father here, were badly frightened early Sunday morning by a would-be-burglar, who entered their home. The ladies had been out to a party Saturday night and returned home about 1:30 a. m. They turned on the light and looked about before retiring. They sleep upstairs and one of them, Miss Sadie, was soon asleep. The other spent a few minutes glancing at a book before turning out the light. She had not arrived at the stage where she was thoroughly asleep when she was roused by a light. Thinking that she fell asleep without extinguishing the light she opened her eyes, only to find a spot light playing over the furniture of the room and someone searching through the bureau drawers. When the light began to move toward the bed in which she was lying, she quickly snapped on the electric light and saw standing before her a tall, thin person clad in white, apparently a sheet was thrown over his head and tied about the neck, only holes for the eyes were cut out. The sight frightened her so that she screamed, waking up her sister and they both gave chase to the miscreant who ran up the hallway and into the bath room.

The phone was downstairs and the bath room was at the head of the stairway. The girls did not attempt to go downstairs, but instead locked themselves in another room and decided to make the best of it if they were forced to fight. It was then 15 minutes to 3. They stayed in the room until morning and did not wake their father, who slept in the adjoining one. When they came downstairs they found the glass broken from one

of the doors where the intruder had made his exit. The house had been ransacked and things were scattered all around. He must have been looking for money, as nothing has been missed, so far it was stated.

Whoever it was climbed upon the perch and made his entrance through the doors up there, using a "jimmy" to get in.

The Chipman people feel confident that the man was some local person who knew all about the house and who knew that they were the only ones home. They think they know who it is, but have made no disclosures as yet.

Miss Chipman says that they have trusted people too much in the past, but in the future they will be prepared for any midnight prowlers.

WILL WE CELEBRATE HERE JULY 4TH

Is American Fork going to fittingly observe Independence Day here July 4th? This is the question which will be put to the citizens at a mass meeting called by the Mayor for Monday night at the City Hall. Every citizen should heed this call and come out and be interested in the activities of the city. The meeting is called for 8 p. m.

It is the opinion of many people that we should celebrate this year in a fitting manner. There was no celebration at all here last year, as the condition of the streets would not permit.

Millinery sale now on at Starley Millinery, Pleasant Grove.

All house cleaning materials can be purchased at Grant's at the lowest prices.

SPEED LAW WILL BE ENFORCED

American Fork is going to stop speeding autoists from breaking our speed limit from now on. This was the decision of a joint committee who met here last week representing all towns in the north end. It was decided to hire one "motor cop" who would have power to make arrests in all three towns. It is understood that the man will not be a resident of any town so that no partiality will be shown. He will be paid monthly wages and no commission. The fines collected will be divided equally among the three towns.

Our speed limit is 15 miles per hour and 8 miles at intersections. Autoists should obey this ordinance.

LAKE HIGHER NOW THAN SINCE 1909

The water in Utah lake is constantly rising. According to engineers it is higher now than it has been since 1909 when it flooded all the fields and roads near its shore. This will be a great saving to the irrigation companies and farmers who use the lake water. The pumps will not have to be used for a long while and maybe not at all this year.

The water is running freely out into the Jordan river and the gates are opened to their full capacity.

The water from the canyons has not been so serious here as was feared. This is due to the fact that we have not had a long hot spell. There will be plenty of irrigation water for the farmers all summer long.

Beautiful Summer SILKS

Look at Chipman's windows for the new styles in Silks and Satins

A Silk costs a little more, but look at the wear you get out of it.

Silks for Waists :: Silks for Skirts
: Silks for Dresses :
Silk Corsets, Silk Camasoles, Silk Bloomers and Silk Skirts.

Make it Silk and go to the
Big Red Store
for all shades and prices
